[2022 SBAC GUIDE LINK](#)**Assessment Area: Alternative: Extended Assessment\***

**Instructions:** Typically, students who have a self-contained placement for Life skills or are fully core replaced will be the only students eligible for this assessment. The team must agree to this assessment and student will have a separate testing coordinator and proctor. If you have questions about Alternative vs Standard testing please reach out to your school psychologist to discuss differences. The Extended Assessment is NOT an alternative assessment for all students to take instead of the SBAC.

**Caution! Modified Cut Scores**

**Instructions:** This is only for students who take the SBAC. **This is not mandatory to provide.** If the team determines that they would like to have a modified cut score the score is lowered based off of average scores that the student has received. The function of a modified cut score is to change the minimum score that a student must receive to “meet.” *This can initiate the student to be placed on a modified diploma track. This is why they are used infrequently and cautiously.*

**Districtwide Assessments:**

## II. Annual IEP Process

### (Everything Past Present Levels)

#### When will progress be reported to the parent?

**Instructions:** Progress reports should be reported to the parent via “With Regular Progress Reports.”

#### How will progress be reported to the parent?

**Instructions:** Progress will be reported via “Progress Reports.”

#### Related Content Standards:

Typically provided for students who are accessing resource curriculum at grade at or just below grade level. **Not mandatory.** This can be provided for all students no matter their instructional level. Oregon does not have Standards for behavior or social skills.

#### Measurable Annual Goals

**Instructions: Present Levels** can be copy/pasted from the Summary of Present Levels of Academic Achievement and Functional Performance Page. **Goals are NOT aligned with alternate assessments aligned to alternate achievement standard** unless student is participating in alternate assessments through a Community, ALC or Life Skills Program.

#### LTO vs STO's

**Notes:** Typically, students who are receiving services in a resource placement will have goals written with LTO (Long Term Objectives). STO's (Short Term Objectives) are typically used to breakdown goals into their smaller steps or shorter steps. These goals are often seen in IEPs for Life Skills Placements. If a student is placed in a Life Skills classroom it is best practice to write goals with STO's attached to breakdown the skills. If a student is not placed in Life Skills, it is per the judgement of the Case Manager to write goals with or without STO's.

#### Pros and Cons

**STO's:** STO's take longer to write, must be connected to the PLAAFP, and create more work when progress reports are due. However, they are a closer analysis of a student's growth and area of need. **Caution!** STO's are not a place to add multiple goals for one service area. STO's MUST build upon each other and build up to the annual goal. The annual goal must be written to measure one area.

**Example 1** (----student will increase oral reading by working towards ----)

**Example 2** (----student will increase oral reading and comprehension by working towards ----)

**Example 1** is 1 area = oral reading.

**Example 2** is 2 areas = oral reading and comp.

It is recommended that you do not write goals with 2 or more separate skillsets.

**LTO's** : LTO's are broader and are used more frequently. They take less time to write and require less work at the time that progress reports are due. They must be connected to the PLAAFP and sometimes do not demonstrate the smaller steps of growth throughout the year.

**Instructions:** These goals should be individualized for the specific student's needs and present levels. Some of the goals below have standards listed. Standards are not necessary to copy into the IEP, but may be useful in discussions with parents and/or general educators. These are not the ONLY options for goals -- they are meant to be jumping-off points for teachers to spend more time individualizing for the student rather than writing goals from scratch.

**Basic Goal Format:** By (DATE), given (TASK, SUPPORT, AND MATERIALS), (STUDENT) will (PERFORM SKILL, TASK, OR KNOWLEDGE TO BE IMPROVED) at/with (PERCENTAGE OR SUCCESSFUL TRIALS) as measured by (ASSESSMENT METHOD).

**General Goal Growth:** Ambitious rates of growth are typically selected for reading ORF, writing WPM and math facts. Growth based off of parentage should be based off of the baseline score and increased at an ambitious but attainable rate. (Example: student who scored 0% accuracy, in adding fractions with common denominators, should have a goal written in that same area at a growth rate between 20 to 50% accuracy depending on the length of time the student will have specialized instruction in that area). This rate places the student at less risk, but is still attainable and the next goal can be written at a higher rate of accuracy).

Sentence Starters

Provide explanation justifying the removal, if any:

**Instructions:** Removal = any class or activity which is restricted to ONLY students with IEPs. Co-taught classes or low-level/remedial classes do not count as removal.

### Extent of Removal

**Instructions Secondary:** Average minutes for 1 class per week: 200 (don't forget to add monthly SLP/OT service minutes if needed). Total minutes in school per week: 2125 (includes breaks and lunch) 1 class = 9.4% of time at school

**Instructions Elementary:** Total minutes in school per week: \_\_\_\_\_ (includes breaks and lunch) – the total minutes of the removal. Divide this total by the total minutes of the day and you have the extend of removal in %age form.

### Copy/paste-able:

(NAME) will be removed from the general education environment for (NUMBER) minutes per week. This is (NUMBER)% of the school day.

### Explanation and Justification

### Copy/paste-able:

(NAME)'s deficits in (AREA, AREA, and AREA) require specialized instruction in the area(s) of (INSTRUCTION, INSTRUCTION, and INSTRUCTION). HE/SHE needs to be removed from the general education setting in the class(es) (SUBJECT, SUBJECT, and SUBJECT) in order to adequately access and achieve progress in the curriculum and toward HIS/HER IEP goals.

### Selected and Rejected

**Instructions:** Choose from drop-down menu. **Only ONE option may be selected**, but **multiple may be rejected**.

### Start Date

**Instructions:** Select the date the day AFTER the IEP meeting date (even if it is a weekend/non-school day).

# III. Progress Reports

## A. Progress Report Assessments

**Instructions:** Progress reports must be completed at least 3 times per year. Typically, a student will only have 2 completed within a year because one will be completed during the term that their IEP is held. The end of each Semester is preferred because more assessment data is readily available in Power Schools/Tienet. Students may also need to complete individualized assessments in order to demonstrate progress on goals. See Appendices: Progress Monitoring Tools for data collection options.

- ✓ You have 10 School Days to provide Special Education service.
- ✓ OUT OF STATE IEP's trigger an INITIAL IEP to be completed by the School Psychologist.
- ✓ Services are provided to the student while the Initial evaluation is completed.
- ✓ **School Psychologist can use some, all, or none of the data provided in the student transfer documents/evaluations/eligibility to complete Oregon Eval.**

## Baseline Data:

Student Strengths:

Developmental history:

Anecdotal reports from preschool staff and information collected during classroom observations suggest that STUDENT

Results from standardized behavior rating scales suggest that STUDENT demonstrates some aspects of behavioral emotional difficulties that fall in the elevated to clinically significant range in both the home and school environments.

Home-based data suggests elevated difficulties in the areas List all that apply

Adaptive skills:

Behavioral data: ( number of referrals, physical aggression, safety concerns, etc).

## Rationale for Shortened Day:

Behavior data collected over the past month at \_\_\_\_\_ School suggests that a temporary reduction in STUDENT NAME school day might be beneficial as it would relieve some of the pressure PRONOUN is feeling throughout the day and allow PRONOUN to build academic and emotional stamina. STUDENT school support team also determined that a temporary reduced day schedule combined with a behavioral data driven, leveled support system which provides STUDENT with more staff support would be the most beneficial course of action, resulting in this proposed change of schedule. Behavioral data indicates that STUDENT episodes of problem behaviors can begin just after school starts, where PRONOUN becomes over-stimulated, engages in extreme non-compliance behaviors, and has shown little ability to de-escalate and recover. This can last throughout the time PRONOUN is on campus. This leveled plan will allow STUDENT a shorter school day while on Levels 1 through 4 so PRONOUN can experience more school success over her day and have time to develop and practice successful behavior strategies in addition to building up STUDENT stamina and tolerance for being in PRONOUN general education class.

## Step-Up Plan Criterion and Steps:

Step Up Overview  
To begin START DATE

THIS IS AN EXAMPLE: SEE NOTES FOR INDIVIDUAL STEPS.

**Level 1:**  
Student will start on Level 1. On Level 1, Student will attend school from 8:30-10:00. Level 1 components include:  
Supervised recess with peers. Student will need to maintain close proximity to a staff member.  
EA/staff instruction/support outside the classroom..  
Targeted inclusion into the general education milieu with EA support.  
Daily social skills instruction/compliance training.  
Daily rewards if Student meets the daily percentage goal on PRONOUN point card.

**(When creating a Step Up Plan you need to have criteria that can be measurable and observable. You are working on building student skills that can be maintained.) You are very specific here.**

**Criteria to Reach Level 2:**  
Student needs to earn 75% or more on PRONOUN daily point cards for 8 out of 10 days before moving to Level 2. Incidents of serious behavior (destruction of property, physical/verbal aggression, unauthorized leaving the designated area of supervision) may result in changes to the behavior plan and level of support.

**Level 2**  
Changes to Student day on Level 2 include:  
1 hour increase in school day (10:00 to 11:00)  
Supervised recess with peers. Student will need to maintain close proximity to a staff member.  
Targeted inclusion into the general education milieu with EA support.  
Reduction of 1:1 EA support  
Daily rewards if Student meets the daily percentage goal on PRONOUN point card.

**Criteria for moving to Level 3:**  
Student needs to earn 80% on PRONOUN daily point cards for 8 out of 10 days before moving to Level 3. Incidents of serious behavior (destruction of property, physical/verbal aggression, unauthorized leaving the designated area of supervision) may result in a level/privilege drop and potential changes to the behavior plan.

**(When creating a Step Up Plan it is suggested that you create a criteria that can be measurable and observable for the team meeting again to discuss other options (stepping down, adjusting, etc). You are very specific here.**

# P. ODE Goal Writing Guide

## Goal Writing Guide

<b>Goal Development</b> – After reviewing your present levels (academic and functional performance) develop S.M.A.R.T.
